IN A FEW WORDS

15 years driving creative projects end to end: scoping, planning, budgets, client relations, coordinating teams through to delivery. Institutional production in France (Arcanes, Aktua Prod), then Montréal in 2018, up to managing a creative team at Crakmedia (4 creatives). I have been integrating generative AI into production since 2025 and I build and deploy my own web applications autonomously. What defines me: turning a still-vague request into a scoped, feasible and profitable project.

KEY SKILLS

- **Brief scoping and review** | needs, scope, production options, success criteria, sign-off
- **External and internal client relations**; public RFP responses
- **Cross-functional team management** | agile rituals, performance, individual coaching
- **Multi-stakeholder coordination** and trade-offs on shifting priorities
- **Capacity planning and production priority management** | 80+ assets/month
- **Budget tracking and schedule management** across several parallel projects
- **Workflow standardization and process documentation** (from pre-production to delivery)
- **Integration and adoption of generative AI tools** in production | rollout and training
- **Autonomous production of graphic and video deliverables** (editing, motion design, graphics)
- **Recruiting and onboarding talent** (in-house and freelance)

■ PROFESSIONAL EXPERIENCE

○ Team Lead | Video production & motion design

Crakmedia · 2022 – 2026 · Montréal, QC · Performance marketing agency

- **Direct management of a team of 4 creatives:** agile rituals, performance tracking, individual coaching
- **80+ video and motion assets delivered per month** (originals + A/B variations), in weekly sprints
- **4 to 6 simultaneous campaigns per month**, from brief to launch, with marketing and media buying
- **One motion design reel reaching 13.5M views** on Instagram (other pieces: 496K, 352K)
- **Scoping of creative mandates:** needs, scope, production options, sign-off
- **Workflow standardization:** routing, reviews, deliverables (Jira, Kollaborate) · DAM implementation
- **Budget tracking and schedule management** across the pipeline · creative review and QC
- **Generative AI integrated into production in 2025**, first on the team (Kling, Midjourney, ElevenLabs, Suno)
- **Promoted to team lead after one year** on the director's initiative · stayed hands-on (editing, 2D/3D)

○ Video Editor / Motion Designer

Les Technologies Seedbox · 2018 – 2021 · Montréal, QC · Digital content creation and distribution

- **Full post-production** of long-form content in a multi-camera 4K environment: color grading, sound design, graphics, motion design
- **Quality lead:** edit reviews, channel quality standards
- Participation in recruiting and onboarding new editors

○ Executive Assistant & Project Coordinator

Aktua Prod · 2016 – 2017 · Rouen, France · Institutional and corporate content

- **Winning RFP for the City of Le Havre** | response and scoping led on an annual mandate
- **Simultaneous management of several institutional and corporate accounts** | client relations, budgets, RFPs · ongoing partnership with Caisse d'épargne Normandie
- **Coordination of external vendors** (freelancers, partner studios): estimates, mandates, follow-ups
- Field shooting and editing (video journalist) · shoot coordination at major events (festivals, public events)

○ Production Manager

Arcanes Production · 2011 – 2016 · Rouen, France · Institutional, corporate and event films

- **Full management of audiovisual mandates** | consulting, scoping, quotes, planning, team coordination, budget tracking, invoicing
- **Public RFP responses** | cities, museums, energy operators, companies (e.g. Festival Normandie Impressionniste)
- **Clients managed:** City of Rouen, ERDF/Enedis, University of Rouen, Habitat 76, Le Kalif
- **Feasibility ownership** | balancing technical, budget and schedule constraints
- Post-production supervision and multi-camera captures, live directing (concerts, conventions, events)

IN PARALLEL Guest lecturer · ISCOM Rouen · 2013–2016: designed and taught audiovisual pre-production modules, supervised group projects for real advertisers

Web & application development · 2026

- **3 digital projects deployed autonomously**, with AI as a production partner, from concept to launch, without a technical team:
- **pemtl.app**: companion web app for Piknic Électronik Montréal festival-goers (React + Supabase + Netlify): lineup, friends, DJ ratings, calendar export
- **Snaaake**: mobile-first browser game in JavaScript canvas, with online leaderboard
- **Bilingual FR/EN personal website**: gael-trefeu.netlify.app, project portfolio

Twitch channel · 2020 – 2022

- **Full visual identity** for a streaming channel, weekly production and broadcasting sustained for 2 years (animated overlays, transitions, graphics · After Effects, Premiere Pro)
